

# 3D Reconstruction From Shadows

Emile Okada<sup>1</sup>

<sup>1</sup>DAMTP  
University of Cambridge

Group meeting

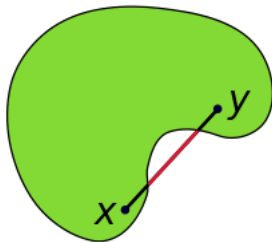

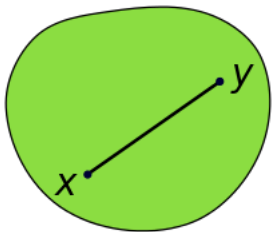

- 1 Motivation
- 2 2D Reconstructions
  - What kind of sets can we reconstruct?
  - How to perform the reconstruction
- 3 3D Reconstructions
  - 'Slice-wise' convex volumes
- 4 TV Denoising

# Motivation

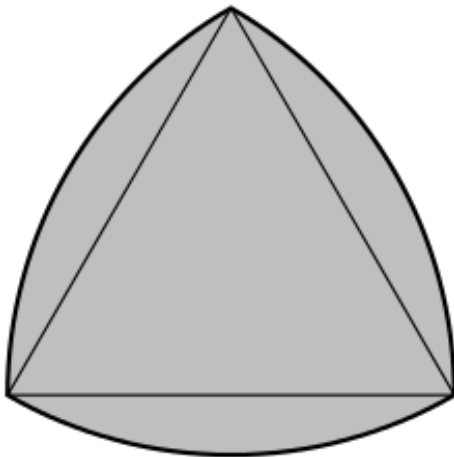

- 1 Motivation
- 2 2D Reconstructions
  - What kind of sets can we reconstruct?
  - How to perform the reconstruction
- 3 3D Reconstructions
  - 'Slice-wise' convex volumes
- 4 TV Denoising

# What kind of sets can we reconstruct?

- 1 Motivation
- 2 2D Reconstructions
  - What kind of sets can we reconstruct?
  - How to perform the reconstruction
- 3 3D Reconstructions
  - 'Slice-wise' convex volumes
- 4 TV Denoising

# Cautionary tale

# Example

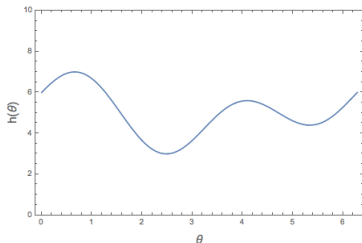

Figure: Shadow function

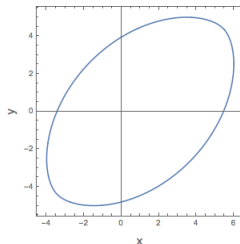

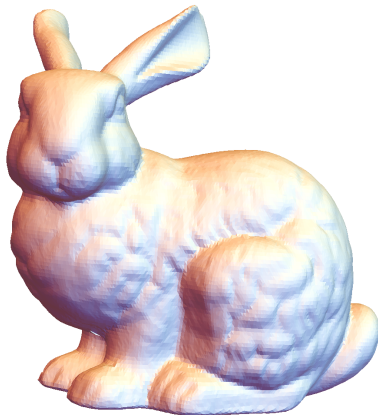

Figure: Reconstructed domain

- 1 Motivation
- 2 2D Reconstructions
  - What kind of sets can we reconstruct?
  - How to perform the reconstruction
- 3 3D Reconstructions
  - 'Slice-wise' convex volumes
- 4 TV Denoising
