

# How to make a full body 3D scanner

By: Emile Okada<sup>1</sup>,

Supervisors: Carola Schoenlieb<sup>1</sup>, Martin Benning<sup>1</sup>, Matthias Ehrhardt<sup>1</sup>,  
Veronika Corona<sup>1</sup>

<sup>1</sup>DAMTP  
University of Cambridge

Summer Undergraduate Research Talks

# Outline

## 1 3D Reconstructions

- 'Slice-wise' convex volumes

## 2 Building

## 3 TV Denoising

# Outline

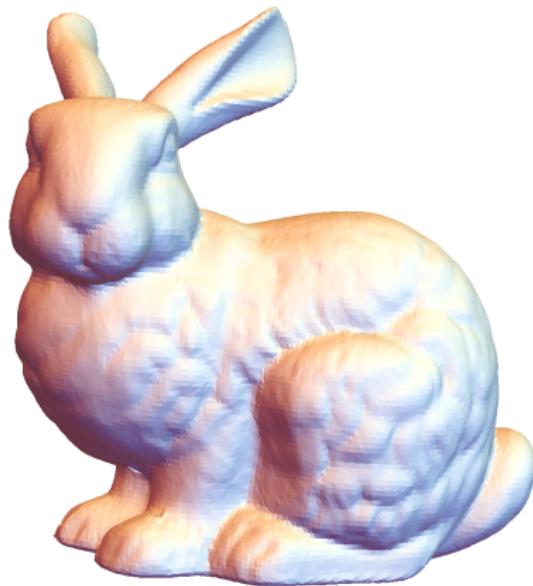

## 1 3D Reconstructions

- 'Slice-wise' convex volumes

## 2 Building

## 3 TV Denoising

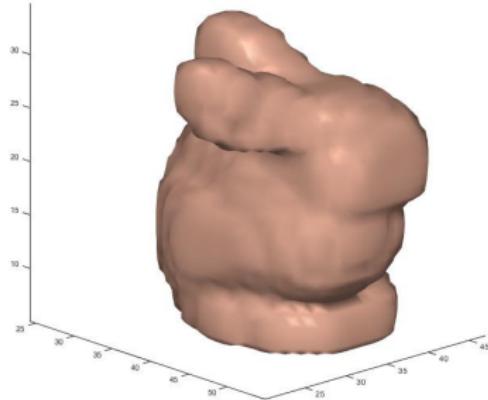

# 3D Reconstruction

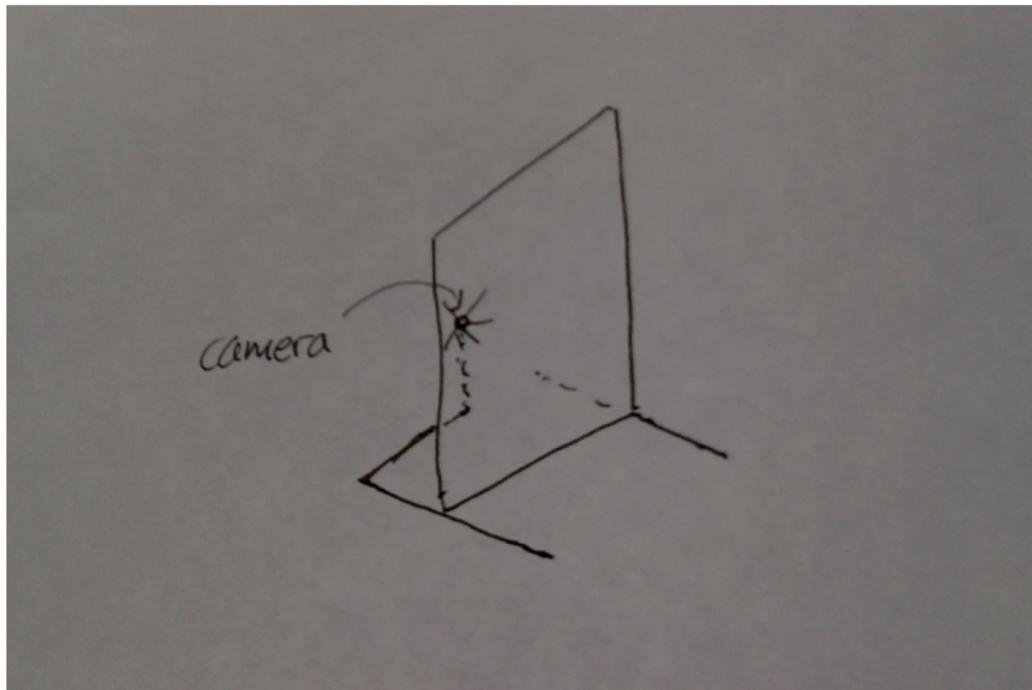

# 3D Reconstruction

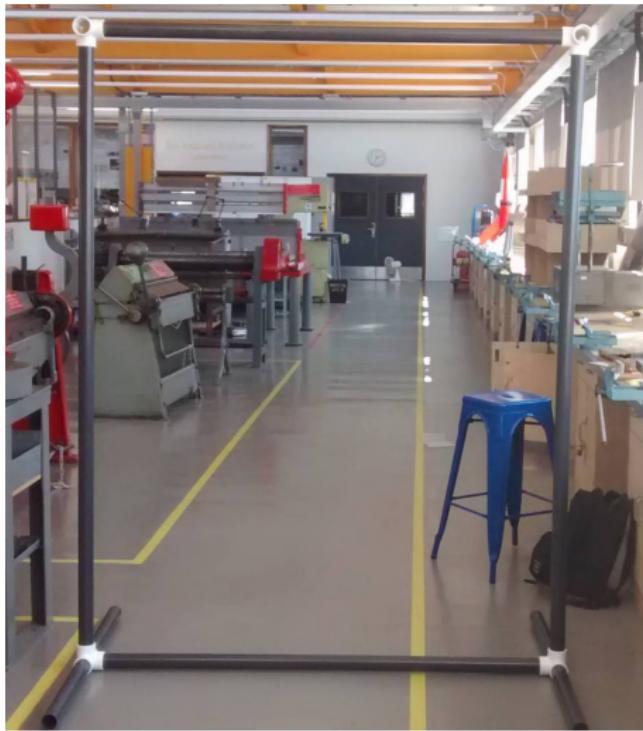

# 3D Reconstruction

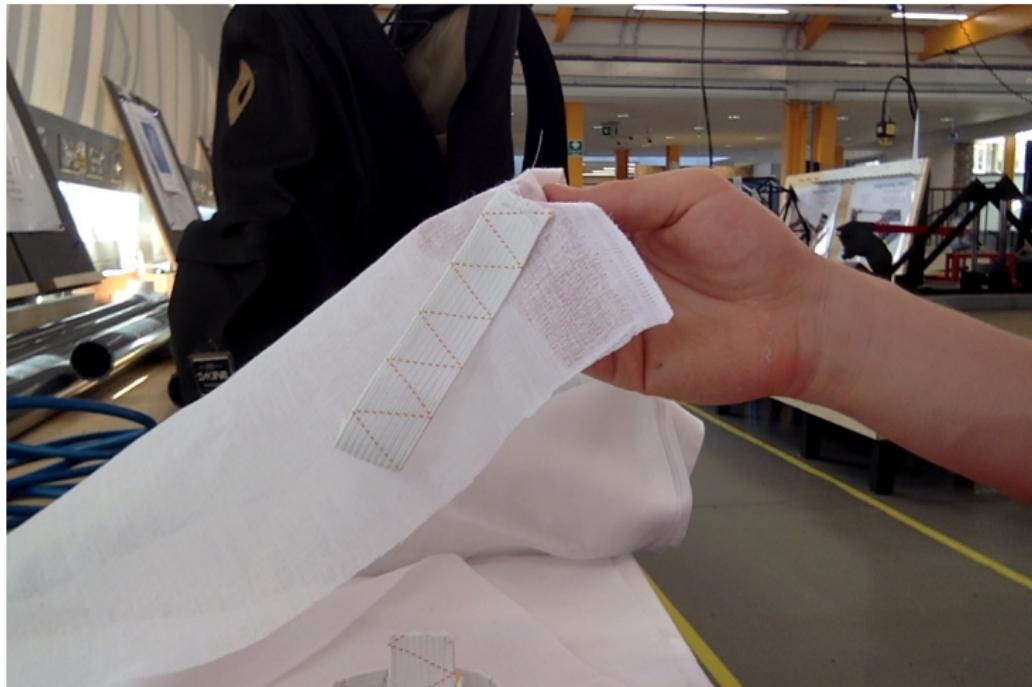

# Initial design

# Frame is made

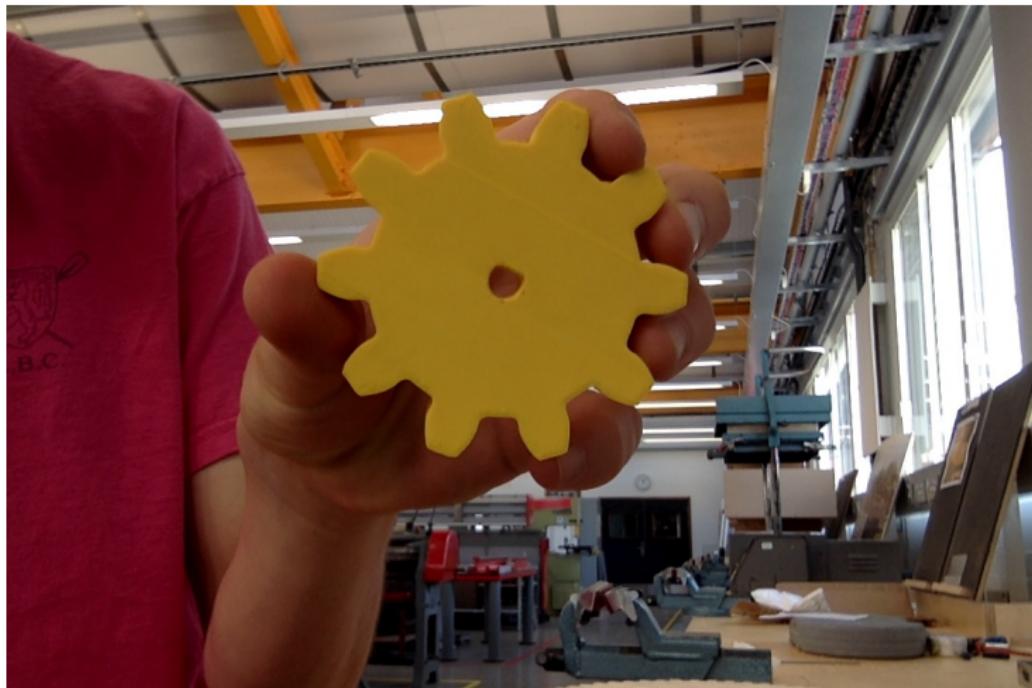

# Sewing mathematician in engineering department

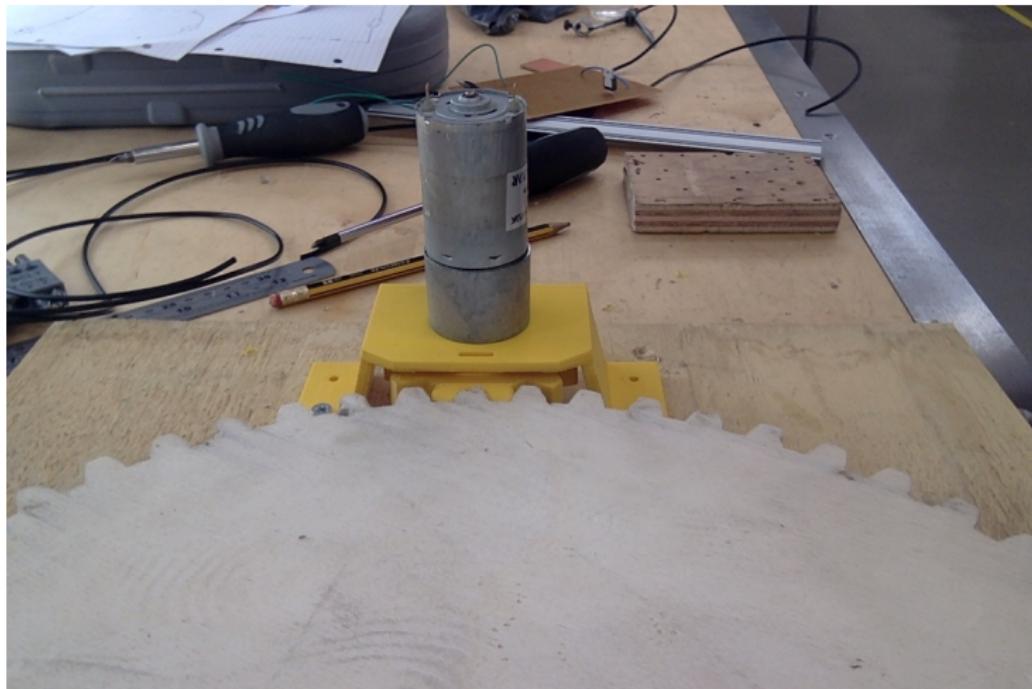

# Shadow

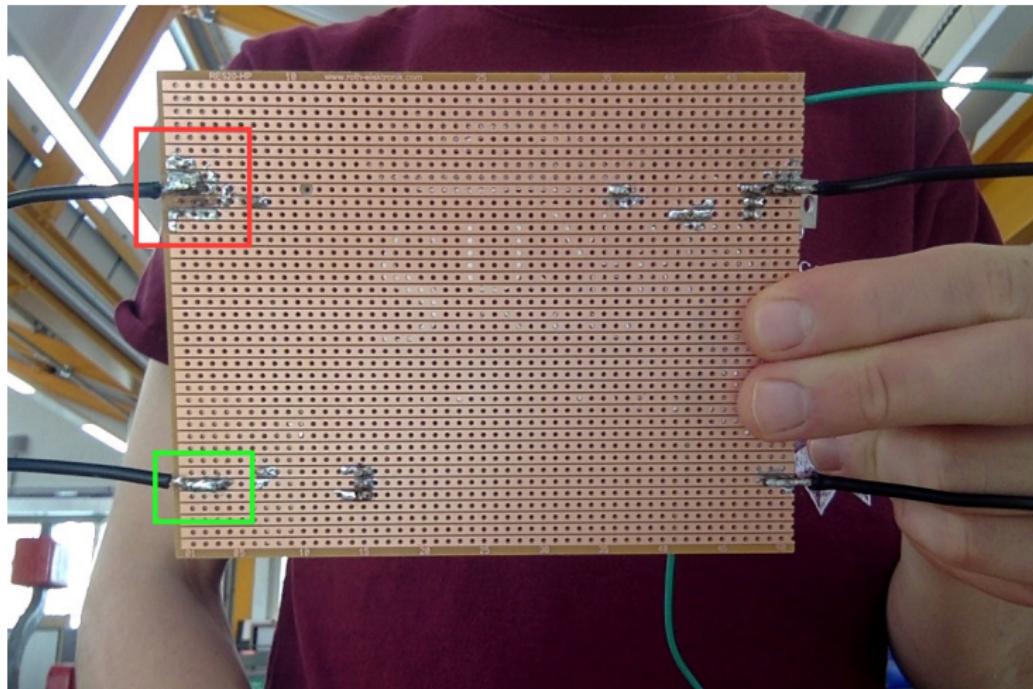

# 3D printing

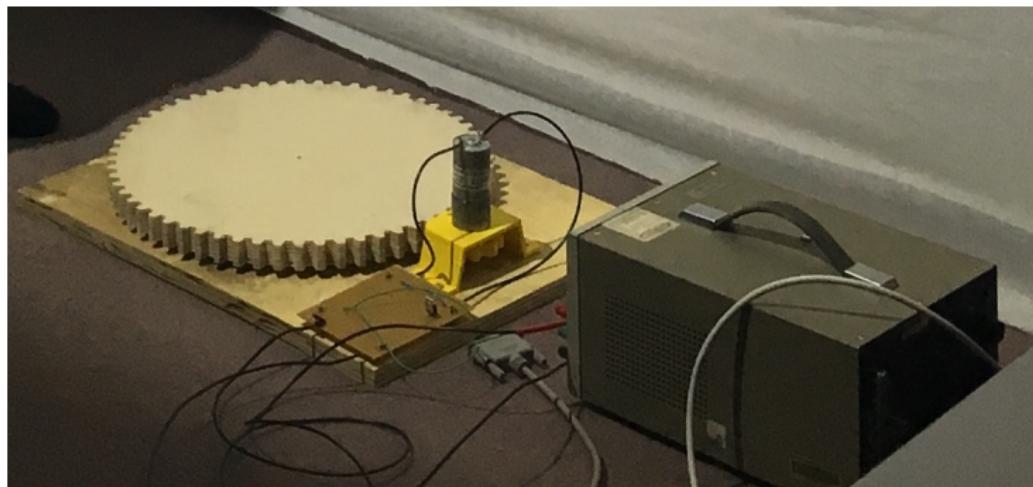

# Making the turntable

# Making the turntable

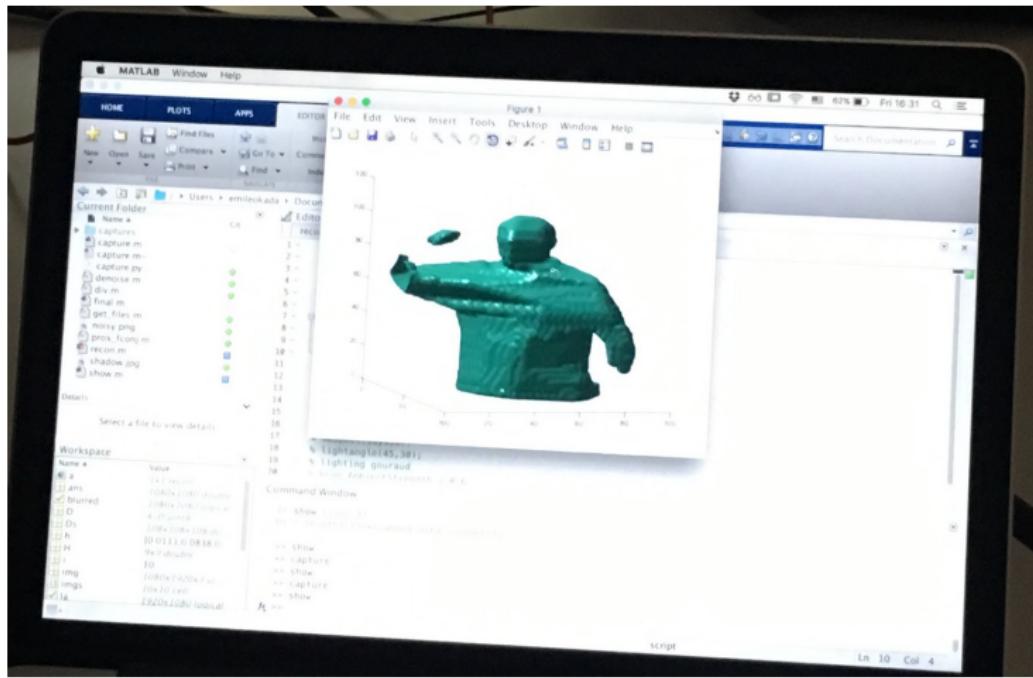

# Turntable

# Whole set-up

# Reconstruction

# TV Denoising

$$\min_u \int_{\Omega} |Du| + \frac{1}{2} \lambda \|u - f\|_2^2$$
